## TEACHING EXPERIENCE

I have been entitled as "Contract Professor" of Medicine since 2003, when I started teaching cardiology to the students of local University Training Programs  
Since 2012 I have been teaching both Theory and Practice to the students of the School of Specialization in Cardiology of the University of Genova.  
I worked with Professor Rabbia, Interventional Radiologist, University of Turin, to the deployment of knowledge of peripheral procedures, performing teaching sessions both in Itali (mainly Turin) and abroad (Sevilla –Spain- and Krakow –Polland-)

## CLINICAL AUDIT EXPERIENCE

Please provide description of your audit experience.

I ran the training program in 2000-2003 for the local City Hospital in Interventional Procedures so far even starting the program of Primary PCIs in our Area

## ADDITIONAL INFORMATION

Since the beginning of the activity of this Center I have been organizing all the cath lab procedures, including hybrid interventions which contributed to lower the overall mortality of our surgical patients leading the Center to be among the top ten in Italy.

I worked for four years with Professor Biamino, formerly Chief Consultant of the Leipzig Centrum, world wide famous for peripheral interventions, in order to improve my skill in interventional procedures.

I have been first operator in "live" procedures held both in Italy and Europe, once in Shanghai; I have been as well both speaker and chairman of several meeting dealing both with coronary and peripheral artery disease.
